FOR

*Winter
Flowering.*

The McGregor Bros. Co.,
SPRINGFIELD, OHIO.

See description and price of these Tulips on page 2.

❀ WE GREET YOU ❀

WITH A NEW EDITION of our Autumn Catalogue of Bulbs, in which are enumerated all varieties of Bulbs that may be valuable or desirable for Winter or Spring blooming. We have had many very flattering reports of the result from Bulbs sent out in the Fall of 1900, which affords us great satisfaction and pleasure.

We supply only the Highest Grade of Bulbs, which we import direct from the best European growers. Our prices will be found to compare very favorably with those of other reliable houses, and are, in fact, as low as is consistent with superior quality. Purchasers will find it to their advantage to order early in the season—as soon after the receipt of this Catalogue as convenient—while our stock is complete and unbroken. With the exception of Lilies and some few other varieties (which are noted) we will be ready to fill orders early in September, about the date this Catalogue will reach you.

Our General Catalogue for the Spring of 1901 will be ready early in January. All purchasers from this Catalogue, and all who have been customers previous to this date, will receive a copy free at the time it is issued, and without applying for it; others wishing it will please write for it. Should any of our patrons have friends requiring Bulbs, etc., we would be pleased to forward a copy of this Catalogue on receipt of name and address. Customers changing their residence will kindly furnish us with their new address, so we may mail Catalogue properly.

Orders Lost or Stolen. Sometimes it happens that orders never reach us. When customers fail to receive their plants within a reasonable time, they should inform us of the fact, and at the same time send a duplicate of their order, also stating the form of remittance and date of original order.

Use our Order Sheet, Filling all the Blanks Carefully. In making out your order please use the convenient Order Sheet which accompanies each Catalogue. If it is necessary to write a letter in addition, let it be on a separate sheet.

New Low Express Rates. We call your attention to the new low express rate, which is a reduction of 20 per cent. from the regular merchandise rate at which plants have been expressed heretofore, and also that packages of less than 100 pounds are billed at 100 pound rates.

Remember, Plants and Bulbs can now be shipped at a Lower Rate than any other class of Merchandise.

Bulbs and Plants by Mail. When plants are ordered by mail, we prepay postage, delivering the plants free of all expense to any postoffice in the United States; when shipped by express, purchaser pays charges.

Our Terms are Cash with the Order. No order sent C. O. D., unless a remittance of one-fourth of the amount of the order be made to guarantee the acceptance.

Address all letters, and make drafts, money orders, etc., payable to

Nothing is easier cared for or gives as great an abundance of deliciously-scented bloom. Fill a bowl or similar vessel with pebbles, in which place the bulb, setting it about one-half its depth, so that it will be held firmly, then fill with water to the top of the pebbles, and place in a warm sunny window. The bulb will at once commence rapid growth, and bloom in four or five weeks. The bulbs are so large and have so much vitality they can be kept perfectly dry all winter, and be planted any time when the flowers are desired. Extra size bulbs, 15 cents each; four for 50 cents.

Narcissus Poeticus.

Poeticus—The "Pheasant's Eye," or "Poet's Narcissus;" pure white flower, with orange cup edged with crimson. Splendid cut flower. Price, 3 cents each; 30 cents per dozen.

(Snake Head or Turk's Cap.)

Very early flowering bulbs, suitable either for garden or pot culture. In pots they bloom during January or February, and are very attractive. They resemble Lily flowers, and are borne on graceful drooping stems; an attractive object to any one's garden or window. Price, for assorted colors, 5 cents each; six for 25 cents.

Chionodoxa Lucilliae.

(Glory of the Snow.) One of the most lovely hardy flowering spring bulbous plants ever introduced, producing lovely azure-blue flowers, with pure white center. It is one of the earliest of all flowers, blooming before the Crocus and sure to be more than satisfactory. Price, 3 cents each; two for 5 cents; twelve for 25 cents.

Scilla Siberica, or Star Hyacinth.

Scilla Siberica is one of the loveliest spring flowers. Color almost as deep as the sky itself. Quite hardy, and flowers out of doors at the same time as the Snowdrop, in front of which it gives a splendid effect. Planted in pots and kept indoors it may be had in bloom as early as Christmas. Its magnificent flowers make it suitable for any decorations whatever. Price, two for 5 cents; 25 cents per dozen.

Scilla Nutans.

(Belgian Hyacinth.) Habit like Hyacinth, a spike with bells suspended. The bells are half the size of Hyacinths. Colors very distinct and attractive. They bloom in May. The colors are blue, pink and white. Price, either of the three colors you may desire, two for 5 cents; 25 cents per dozen.

French Ranunculus.

Strikingly beautiful flowers, well adapted to pot culture in the house. The individual flowers are about two inches in diameter, as full and double as the finest Camellia or Rose. They are not hardy, and some pains must be taken to insure success when planted out in beds. Like Anemones, they do best planted in very rich soil, having a southerly exposure to escape our sharp winds and too much sun. The beds should have good drainage, and the soil be light and warm. Plant three inches deep, in October or November, and press the earth close around them. On the approach of cold weather the beds should be thoroughly protected with leaves, litter or manure, which should be covered with boards. When warm weather approaches, this covering is removed, and success is tolerably certain. Price, 4 cents each; eight for 25 cents.

CROCUS.

The Crocus is one of the first flowers of spring, and one of the best for blooming in the house during the winter. They bloom splendidly when planted on the lawn among the grass. They lift their bright heads up through the sod very early, and give the lawn a charming aspect. The sorts we offer are strong and fine.

SNOWDROPS.

These are the first flowers to greet us in the spring, their pretty, drooping, snow-white blossoms appearing in March, a few days ahead of Scilla Siberica, with which they form a charming contrast. They are also charming for house culture in pots, blooming usually at Christmas. The Giant Snowdrops we offer are much superior to the common variety, producing larger flowers.

Giant Double Snowdrop—Price, 4 cents each; 30 cents per dozen.

Snowdrop, Elweisii—A very large, tall variety. Fine for cutting. Flowers three times the size of ordinary Single Snowdrops and sweet-scented. Price, 4 cents each; three for 10 cents; 35 cents per dozen.

ANEMONES.

Very beautiful and brilliant spring flowering bulbs, which should be found in all gardens. Double—Mixed colors. Price, 4 cents each; 35 cents per dozen.

SNOWDROPS.

The Bermuda Buttercup OXALIS.

**An Unrivalled Winter-Flowering

Succeeding with Everybody.**

This is one of the finest winter flowering plants for pot culture that we have ever seen; it is such a strong, luxuriant grower that one bulb will be sufficient for a 7 or 8 inch pot. Place in a dark, cool position for a few weeks to root thoroughly, and remove to a sunny situation in the window, and the great uninterrupted profusion of bloom produced for weeks will astonish and delight you. The flowers are of the purest buttercup-yellow. When grown in a partially shaded situation the flowers remain open all the time. Properly treated, the plant will flower in six weeks from the time the bulbs are planted. Price, 5 cents each; 6 for 25 cents.

Other Oxalis.

Versicolor—Rose and white. Delicately beautiful.

Cernua Flora Simplex—Fine single yellow.

Lily of the Valley.

Too well known to need any special description. Every one knows their value for outdoor blooming, but all do not realize that their sprays of fairy bells can be obtained in winter just as easily. We offer strong, imported pips that have been grown especially for winter blooming. Plant half a dozen pips in a four-inch pot, keep rather cool until well started, then bring to the light and warmth and keep freely supplied with water. You will be surprised at the rapidity of their growth and at the size of their lovely, fragrant bells. We can supply the bulbs all winter. Price, 4 cents each; 40 cents per dozen.

TWO VASES OF ROMAN HYACINTHS.

THE BERMUDA BUTTERCUP OXALIS.

CYCLAMEN or PERSIAN VIOLET, New Improved.

There is no more ornamental plant for greenhouse or parlor culture than the Cyclamen. It grows readily, blooms freely, and remains a long time in flower. The soil should be equal parts of turfy loam, leaf mold and silver sand. Put in pots three times the diameter of the bulb in October. Keep them in a cool, light place, watering lightly until growth begins. Then water freely and give plenty of light and air. On the approach of cold weather remove to a warmer situation, the parlor or greenhouse, but keep them near the light. The whole secret of growing Cyclamens to perfection is light, air and low temperature. Price, 10 cents each.

ROMAN HYACINTHS.

We wish to call special attention to these beautiful white Roman Hyacinths, which are so valuable for early winter blooming. They are among the few flowers which can be had as early as Christmas and New Years. Three can be planted in a four-inch pot, which, when in bloom, forms a mass of waxy bells of unrivalled beauty and fragrance. Each bulb throws up several flower spikes. Don't fail to plant a quantity of them.

SINGLE WHITE ROMAN—The most popular of all. Every window should have several pots of these. Exquisite bells, white as the driven snow, and pleasantly fragrant. Never fails to bloom. Price, 5 cents each; 50 cents per dozen.

GRAPE HYACINTH.

This charming little gem should be found in every garden in abundance. It has been termed the "Blue Lily of the Valley," and when planted in a mass with that sweet flower it does resemble it to some extent, and forms a most fascinating combination.

Blue—Price, 3 cents each; twelve for 25 cents.

White—Price, 3 cents each; ten for 25 cents.

FEATHER or COCKADE HYACINTHS.

Of this elegant Hyacinth the spike of bloom resembles a feathery plume, and is of a fine blue color. The bloom first appears as a tassel about an inch or two long, of a rich blue color, but as it expands is marked with pink, and at the end of two months is developed into a beautiful plume six inches in length, of exquisite coloring—pink, violet and blue. Desirable for both house and garden. The bulbs rapidly increase and are perfectly hardy. We have secured a fine supply this season. Price, 3 cents each; six for 15 cents; twelve for 25 cents.

The Beautiful Freesia Refracta Alba.

THE charming and novel blossoms of this popular flowering Bulb are well shown in our illustration. For Winter blooming in the house it is probably today the most popular of all. It is sure to succeed and flower elegantly for any one in any situation. The splendid blossoms are borne in great profusion; color purest white, the lower petals touched with yellow. The perfume is delicious, reminding one of Hyacinth, Mignonette and Jessamine combined. There are six to eight flowers on a stem nine inches high, which are particularly valuable for cutting, remaining in good condition for two weeks. Four to six bulbs can be planted in a five-inch pot, box or pan, and grown like other bulbs. By planting at intervals from September to November, a succession of flowers can be had throughout the Winter. We offer the largest and finest Bulbs and earnestly recommend every one to plant at least a few of this lovely variety. Price, 3 cents each; six for 15 cents; twelve for 25 cents; twenty-five for 50 cents.

A POT CONTAINING SIX FREESIA BULBS.

IXIAS.

The Ixias produce their beautiful flowers in spikes, and are of the most dazzling and brilliant colors and sure to attract great attention. It is only a few years that they have been grown in this country to any extent, but in that time, like the Freesias, they have become very popular. For pot culture in the house they give great satisfaction, being easy of culture and free bloomers. Plant in October (six to eight in a 5-inch pot) in sandy loam, one inch deep, pressing the soil firmly over the bulbs. Put away in a cool cellar or frame and cover with ashes. Water sparingly until the flower spikes appear. They may then be brought to the light and given plenty of air, sunshine and water. Finest new English sorts in variety. Price, 3 cents each; two for 5 cents; 15 cents per dozen.

SPARAXIAS.

These differ from the Ixias in their dwarf habit, time of flowering and brilliancy of coloring, ranging through the various shades of crimson, scarlet and white, mottled, striped and splashed in every conceivable manner. Cultivate as Ixias. Price, 3 cents each; two for 5 cents; 25 cents per dozen.

DIELYTRA SPECTABILIS.

SPANISH IRIS.

THE GORGEOUS SCARLET MEXICAN LILY,

Sprekelia Formosissima.

Any description would be inadequate to give a correct idea of the superb brilliancy of the flowers of this Lily. They are of a dark velvety-scarlet, shading to maroon and having a satiny-white stripe in the center of each petal. In form more graceful than any Lily we know of. They must be seen to get a proper idea of their gorgeous magnificence. Plant the bulbs either in sand and pebbles covered with water, like a Sacred Lily, or in pots filled with good rich soil. If planted in the same manner as the Chinese Sacred Lily, the blooms will appear much sooner, but will not last so long as when planted in earth. Try two or three of these bulbs planted together and a gorgeous display is assured. Price, 15 cents each; two for 25 cents; three for 35 cents.

SPOTTED CALLA LILY.

The Mammoth Black Calla,

The Great Dragon Arum.

This plant has the honor of producing the largest flower of any plant that is hardy in this country. They are simply enormous. The leaf stems and flower stalks are all spotted with purple, like an adder, and upon the top of the latter opens a flower of gigantic size and curious color. On the outside it is of a light green color, while the inside is of a deep red-purple, glistening beautifully in the sun with a satin sheen. The spadix in the center of the flower is of a glossy, purple black color. As will be seen from the cut, the plant resembles a palm in general appearance. Price, good bulbs, 15 cents each; extra large bulbs, 25 cents each.

Calla Richardia, Spotted Calla.

The Richardia Alba, or Spotted Calla, is a plant of magnificent appearance. The leaves are of the richest green, spotted with pure white; the flowers are white, with a rich chocolate throat. It can either be grown in a pot, planted in a border, or in a vase or rustic stand, the latter being a very effective way of showing its beauty. Price, 10 cents each; large bulbs, 20 cents each.

The True Bermuda Easter Lily.

LILIUM HARRISII.

This peerless Lily is the greatest acquisition to floriculture made in many years. Their profusion of bloom, the remarkably short time required to bring them into flower, and the certainty to produce abundant bloom and also the ease with which they can be manipulated to be flowered at any desired period, such as Christmas, Easter and other special occasions, render them invaluable. The flowers are delightfully fragrant, pure waxy-white, of great substance, and if cut as soon as they are open or partially open, they can be kept for two weeks. Bulbs potted in August can be had in flower in November if desired. The quantity of bloom produced is marvelous, the average production of bulbs five to seven inches in circumference, even when forced, is from five to eight flowers; and of bulbs seven to nine inches, eight to twelve flowers. Blooming plants in pots form typical Easter offerings and presents, for decoration of the window, table, house or church. Nothing is more appropriately beautiful and highly appreciated. Thousands upon thousands are sold in the large cities every winter for this purpose. As a garden Lily it is of great beauty, being entirely hardy excepting in northern climates where it requires a protection of leaves or litter to the depth of five or six inches. Price 20 cents each; three for 50 cents.

LILIUM CANDIDUM.

The Madonna, or Annunciation Lily.

This Lily is the emblem of purity. The deep lemon anthers contrast beautifully with the wax-like petals. The fragrance is delicious and never oppressive. It is one of the best of Lilies to grow in the house or outside; perfectly hardy. Price, 15 cents each; four for 50 cents.

Price, 30 cents each.

If you have an out of the way corner that you would like to fill with something very pretty, something that is hardy and will need no care after planting, get a dozen or more *Lilium Tigrinum*—double tiger lily. Plant them in October about four inches below the surface and about 6 or 8 inches apart. The cut flowers are exceptionally fine for house decoration. Price, 15 cents each; \$1.25 per dozen.

THE TRUE BERMUDA EASTER LILY.

The Beautiful Lemon Lily of Siberia.

(*Hemerocallis Flava*.)

One of the most beautiful and desirable Lilies in existence. You plant it once and you have it for all time. Few plants present a more striking appearance on the lawn or border than a large clump of this clear lemon-colored Lily, which is produced in the greatest profusion, lasting in flower for a long time. It is perfectly hardy, requiring not the slightest protection and no care, after being once started. Price, 20 cents each.

Summer Flowering Hyacinths.

Hyacinthus Candicans—This is unlike our spring blooming Hyacinths. Its leaves are deep green, fleshy, resembling some of the Yuccas. The flowers are white, in handsome pendulous bells arranged on pyramidal spikes, often reaching the height of five feet or more in strong plants. A strong bulb will give from two to three flower spikes, and these produce from thirty to fifty flowers. The plants come into bloom in July and bloom continuously until October. Price, 10 cents each; three for 25 cents.

Dear Sirs:

The bulbs were received in due time and are as usual entirely satisfactory.

North Cambridge, Mass.

Yours truly, M. S. P.

PLANT DEPARTMENT.

Roses.

We have here only a partial list of our roses, but it includes about all the leading and most desirable varieties. Do not fail to add some roses to your order, as this is a good time to buy.

Roses.

Pink La France.

We have always given this the first place—the Queen of Roses. Accounts come to us from all quarters every year describing the great profusion of its bloom from June until frost, and extolling its fragrance and immense size. It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery-rose shades, with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored and fragrant in the highest degree. Price, 10 cents each; large size, 30 cents each.

Red La France, (Or Duchess of Albany.)

We have no hesitancy in saying to our customers that this Rose stands at the head of all Roses, not excepting La France. What we wish to impress is the fact that as a Rose for all purposes it has no peer. It is identical with La France, excepting in three points. Those are: A more vigorous growth, a larger and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Price, 15 cents; large size, 30 cents.

White La France.

(Augustine Guinoiseau.)

Here we have a beauty indeed, one we recommend to all, whether for out-door culture or for pots in the house in winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant new Rose. It is identical with La France, except the color. It is pearly-white, sometimes tinted with fawn. We predict for it far more popularity than La France ever attained. Don't fail to get this new Rose. Price, 15 cents; large size, 30 cents.

SPECIAL OFFER:

**The Four La France Roses for 40 cts.,

The Wonderful Red Marechal Niel.

For years we have had the much-admired and ever-popular Yellow Marechal Niel, and recently to it was added the White Marechal Niel. But now, to cap the climax, that famous German Rosarian, Peter Lambert, has brought out the Red Marechal Niel, a fitting companion to the other two and completing a most desirable trio. The Red Marechal Niel is the result of a cross between the ever-gorgeous Gen. Jacqueminot and the Yellow Marechal Niel. Flowers are large, well-shaped, full, and of the form of Yellow Marechal Niel in the bud and open flower; color carmine-red, shading to pink; fragrance delightful. Price, 15 cents; large two-year-old plants, 30 cents.

SPECIAL OFFER:—The Famous Trio for 30 cents. Large two-year-old Plants for 75 cents.

PINK AND RED LA FRANCE.

The Famous Trio, the White, Yellow and Red MARECHAL NIEL.

The Beautiful White Marechal Niel.

The fame of Marechal Niel, with its large, deep, golden-yellow flowers, is so world-wide that nothing further need be said of this new variety to make it instantly popular than that it is the exact counterpart in every respect of Marechal Niel, its parent, save the color of flower, which is pure white. Price, 15 cents; large two-year-old plants, 30 cents.

The Superb Yellow Marechal Niel.

A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. Price, 10 cents; large two-year-old plants, 30 cents.

WHITE MAMAN COCHET.

The Charming Tulip Rose,

MADAME ELI LAMBERT.

It belongs to the Tulip class, salmon-pink, with the center of coppery-rose, elegantly edged darker. Price, 10 cents each; large two-year-old plants, 30 cents each.

New Tea Rose,
SUNSET.

A grand variety. The flowers are of large size, fine, full form, very double and deliciously perfumed; the color is a remarkable shade of rich golden-amber, elegantly tinged and shaded with dark, ruddy-copper. Intensely beautiful and resembling in color a splendid "Afterglow." It is a constant and profuse bloomer. Price, 10 cents each; large, fine two-year-old plants, 30 cents each.

SUNSET.

The Beautiful New White Tea Rose,
WHITE MAMAN COCHET.

The finest rose of the year; like its parent the growth is vigorous with rich, healthy foliage, producing large fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice roses to plant at least one of this beautiful new rose. Price, 10 cents each; large two-year-old plants, 30 cents each.

The Beautiful New Ever-Blooming,
MAMAN COCHET.

It is a vigorous grower with beautiful foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. You can get an idea of the exquisite flower from the engraving. It is of the largest size, and, as you will notice, the flower is built up or rounded, and very double. The color is a deep rose-pink, the inner side of the petals being a silver-rose, shading and touched with golden-yellow. We pronounce this the finest rose by far that has been introduced from France in the past five years. Price, 10 cents each; large two-year-old plants, 30 cents each.

New Tea Rose,
GOLDEN GATE.

This magnificent Rose is a cross between the old greatly admired varieties, Safrano and Cornelia Cook, and while combining the good qualities of both is vastly more beautiful than either. It is a strong, healthy grower, excellent for both bedding and house culture. Produces a profusion of long, pointed buds, opening to very large double Roses of creamy-white, beautifully tinted with soft yellow at the base of the broad petals, which are exquisitely bordered with clear rose. We heartily recommend it. Price, 10 cents each; large two-year-old plants, 30 cents each.

BRIDESMAID.

Mrs. Robert Garrett.

New Rose.

The size is enormous; indeed, the flowers are larger than any Tea Rose we have ever seen, while the form, both in bud and full blown flower, is most artistic and beautiful. The buds are unusually long and pointed; the open flowers full and double. The color is a pleasing soft pink, a little deeper than Daybreak Carnation, totally distinct and unlike anything yet seen in Roses. It is a strong, vigorous grower, producing its flowers on long, stiff stems. Price, 10 cents each; large two-year-old plants, 40 cents each.

New Climbing Rose, MRS. ROBT. PEARY. Or Climbing Kaiserin Augusta Victoria.

It is an offspring of that grand variety, Kaiserin Augusta Victoria. The flowers are extra large, full, deep and double. They are of excellent substance, and produced on long, stiff stems, like a forcing Rose. The color and shape of the bud and flower are identical with Kaiserin Augusta Victoria. Pure ivory-white. The foliage is also identical. The fragrance is delicious. Price, 15 cents each; large two-year plants, 35 cents.

A Glorious New Rose, Climbing Marie Guillot.

If you have never seen Marie Guillot growing at its best in the open ground, you cannot conceive of the beauty of its large, bold, handsome white flowers. The buds are particularly beautiful and the fragrance delightful. Price, 15 cents; large two-year plants, 35 cents.

It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. It will make a strong growth and is literally loaded with its deep, rich red flowers all the time. Its flowers are much larger than Meteor and are richer in color. It is just the Rose to train up the veranda or around windows, where its great beauty will show up to good advantage. Price, 10 cents each; two-year-old plants, 30 cents each.

Two Unequaled Roses, The Bride and Bridesmaid.

Price, 10 cents each; large two-year-old plants for 50 cents.

White Tea Rose, The Bride.

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long, stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. Price, 10 cents each; large plants, 25 cents each.

New Tea Rose, Bridesmaid.

Here we have a new rose, a sport from that old stand-by, Catherine Mermet. All know that Catherine Mermet takes precedence as a pink rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer than any pink rose. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time under every condition of weather and surroundings. Price, 10 cents each; large two-year-old plants, 30 cents.

New Tea Rose, KAISERIN AUGUSTA VICTORIA.

This beautiful rose has not only a royal name, but it is a royal rose as well. A grand new Hybrid Tea Rose that has received the endorsement and commendation of the highest European authorities. The flowers, produced on long stems, are extra large, having broad, thick petals, and long, tapering buds, with delicious tea fragrance. The Beautiful New Hybrid Tea Rose,

President Carnot.

It is a Rose of the largest size, beautiful both in bud and open flower. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. We have no hesitancy in saying that this charming Rose will become as popular as La France, as it has all the good qualities of that Rose, and at the same time is distinct in every feature. It is so handsome and distinct that it attracts immediate attention. It is, indeed, a wonderful Rose, one that everybody can grow and bloom. Price, fine young strong plants, 10 cents each; fine two-year-old plants, 40 cents each.

The New Hardy Yellow Rambler—Aglaia.

This new Hardy Climber produces its flowers in the same manner as the popular Crimson Rambler—that is, in large pyramidal-shaped trusses, frequently being from 50 to 100 flowers in a truss. In color it is a decided yellow, with moderate-sized cup-shaped nearly full flowers which are sweetly scented. Its habit of growth is very strong, frequently making shoots of eight to ten feet in one season. Price, 10 cents each; strong two-year-old plants, 25 cents each.

Climbing White Pet.

This is an unusually vigorous grower and a wonderfully profuse bloomer. It is remarkable for the rapidity of its growth and freedom of bloom. VICK'S CAPRICE.

The flowers are large, ground color, soft satiny-pink, distinctly striped and dashed with carmine. It is beautiful in the bud form, being quite long and pointed, also showing the stripes and markings to great advantage.

GLOIRE DE LYONAISE.

This grand Rose is the nearest yellow Hybrid Perpetual we have. It can not be called deep yellow, but rather a pale shade of chamois or salmon-yellow, deepest at center, sometimes passing to a rich, creamy-white, finely tinted orange and fawn. They are used for pot plants or warden cases. They dislike our dry, bright sunshine, and thrive best in a rather shady, warm and moist situation. We grow several of the most beautiful and desirable Rex Begonias in cultivation. Price, our selection of variety, 15 cents each; four distinct varieties for 50 cents.

The Most Satisfactory of all Flowering Begonias,**BEGONIA RUBRA.**

If you only have one Begonia, let it be a Rubra, for it will prove a constant delight. Beautiful Ferns.

FOR SPECIMENS
AND FERNERIES.

BOSTON SWORD FERN.

These beautiful plants are now very generally cultivated. Their great diversity and gracefulness of foliage make them much valued as plants for vases, baskets or rock work, or as specimen plants for parlor or conservatory. Keep them out of the direct sunlight, and water carefully, that the delicate roots lying near the surface may never become dry.

Boston Sword Fern.

The Boston Sword Fern
—(*Nephrolepis Exaltata Bostoniensis*.) A variation from the ordinary Sword Fern which originated in the vicinity of Boston, where it has been in popular favor for a number of years under the name of Boston Fern. In the vicinity of Boston no other plant is used so extensively as this graceful *Nephrolepis*, which differs from the ordinary Fern in having much longer fronds, which frequently attain a length of four feet. These fronds arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. Price, small plants, 10 cents each; large plants, 25 and 50 cents each.

PTERIS TREMULA.

(Shaking Fern.) The foliage of the *Pteris* varieties is large; very graceful. The slightest movement of the air shakes the leaves of this kind, which we recommend more than any other for house culture, etc. It grows readily and very fast. Keep the leaves from dust and sprinkle slightly every warm day. Price, 10 cents each; large plants, 20 cents.

The Beautiful Silver Fern,

PTERIS ARGYREA.

A very showy Fern, with variegated foliage; fronds large, light green, with broad band of silver-white down the center of each. Very distinct. We have a large stock of this beautiful Fern. Price, 10 cents each.

PTERIS CRETICA ALBO-LINEATA.

A pretty and useful variegated variety, distinctly showing the clear white variegation. A useful and easily grown Fern. Price, 15 cents each; two for 25 cents.

ASPIDIUM TENSEMENSE.

A beautiful variety, having graceful, dark, dense green fronds. A clear, good grower, and very ornamental. Price, 15 cents each.

Selaginella Emilliana.

A new, upright growing moss, with numerous feathery stems branching from the base and forming a dense tuft. Well grown plants attain twelve to eighteen inches in height. We know of no moss superior to it. We put this moss in with the page of Ferns as the character is very much like the Fern and is used with them in ferneries. Price, 10 cents each.

The Beautiful Maiden Hair Fern, Adiantum Cuneatum Grandiceps.

A very beautiful form of *A. Cuneatum*, having long, graceful fronds, with the ends of the fronds developed into bunching-tasseled heads; a distinct and lovely variety. Price, 10 cents each.

SELAGINELLA EMILLIANA.

Fern Dish Offers, Nos. 1 and 2.

- No. 1.— 8 Ferns for a 7-inch in diameter dish \$0.75
No. 2.— 12 Ferns for a 9-inch in diameter dish 1.00

The use of ferneries as ornaments for the dinner table is now very general. Nothing makes so fine an ornament and nothing is so well adapted for the purpose. For this we make the following offer, which is entirely our selection of varieties.

ASPARAGUS PLUMOSUS NANUS.

The Beautiful Hardy Vine CLEMATIS PANICULATA.

One of the most beautiful of our hardy-flowering vines. The flowers are pure white, and are borne in great panicles or clusters of bloom, fairly covering the plant, so that it is a mass or sheet of fleecy white. These clusters are borne on long slender stems, which stand out boldly from between the glossy green leaves, and the gentlest breeze causes wavy crests of white to flow gently over their surface. The fragrance is delicious, resembling the English Hawthorn blossoms, and is so subtle and penetrating that a large plant in bloom will fill the air with fragrance. It begins to bloom late in August or early in September, at a time when most other hardy climbers are out of bloom, an inestimable advantage. Price, 10 cents each.

NEW CUPHEA TRICOLOR.

Flowers tubular in shape, one and a half to two inches long, and have two bright scarlet wings at the end of each flower; the tip of the flower is bright purple, the stamens are pure white. The plants are always in bloom when given proper care. It grows into a bushy plant about fifteen inches high, and makes an elegant appearance for baskets or bedding. Price, 10 cents each.

DRACENA INDIVISA.

The Charming Decorative Plant.

One of the most popular plants for house decorations or for the center of lawn vases. As a single specimen plant for a jardiniere in a hall or drawing room it has no equal. It is more graceful than a palm, and because of its slender, drooping leaves is often called a "Fountain Plant." The leaves are of several shades of green, with delicate stripings of yellow and red, which become marked as the plant grows older. It grows rapidly, is adapted to the close atmosphere of the house, and is very inexpensive. Price, 10 cents each.

Asparagus Plumosus Nanus.

One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken mesh. Their lasting quality, when cut, is remarkable, retaining their freshness for weeks, hence it ranks as the most valuable plant we have for this purpose, surpassing Maiden Hair Fern in grace, fineness of texture and richness of color. It is one of the finest decorative vines recently introduced; by many florists it is used instead of smilax, as easily grown and very much more beautiful on account of its light feathery growth. Price, nice plants, 15 cents each; two for 25 cents; large plants, 25 cents each.

Asparagus Sprengeri.

When introduced, at a high price, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for fine cut-flower work, more particularly in connection with large roses, etc., but grown in suspended pots it makes one of the prettiest decorative house plants we know of. Used in decorations, as, for example, in the decorations of mantels, nothing can equal it. It is also a handsome thing for ferneries and hanging baskets. See illustrations. Price, 10 cents each; three for 25 cents; large plants, 20 cents each.

ALOYSIA CITRIODORA.

(LEMON VERBENA.)

A universal and well-known favorite, grown principally for its deliciously scented foliage. Price, 10 cents each; \$1.00 per dozen.

ALYSSUM—Sweet.

Favorite summer and winter-blooming plants; indispensable for borders and ribbon lines. Price, 8 cents each; three for 25 cents.

Double White—Large, double, white flowers; valuable for cut flowers.

Variegata—Variegated foliage, double flowers.

ARTILLERY PLANT—Pileas.

Muscosa—(Artillery Plant.) Graceful, fern-like foliage and immense numbers of very small flowers, which produce a snapping sound when sprinkled. Price, 10 cents each.

Repens—A very pretty little plant of drooping or creeping habit, peculiar moss-like foliage. Price, 10 cents each.

Grandis—Until it comes into flower you would never suspect that this belongs to the same family as the "Artillery Plant" (Pilea Repens). It makes a most graceful plant, with large leaves of golden-green color. Price, 10 cents each; the three varieties for 25 cents.

ASPARAGUS SPRENGERI.

•Araucaria Excelsa.

Norfolk Island Pine.

As a decorative plant for the house this is one of the handsomest and most serviceable. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequaled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. Our importation of these this year was exceptionally large and fine selected stock, especially in the medium size, for which there is always a demand.
